A Service Oriented Company

Congress Network Corporation manufactures the best devices for simultaneous interpretation and assistive listening, providing a top quality customer service in English, Spanish and Portuguese.

Money back warranty!

More info in our Website

Tango 20 is the first professional multichannel receiver exclusively developed for simultaneous interpretation purposes in the international market and multichannel assistive listening applications in the USA.

Its multiple features were designed to save time in this highly demanding business.

In any conference or event with hundreds of receivers, there is no time to deal with interferences that may require several hours to reprogram each of the devices.

There is nothing like the simplicity of Tango 20!

By pressing a single button you can switch frequencies that are strategically allocated. This increases your ability to overcome most of the difficulties that you may encounter in any event, in almost no time.
